An individual who received a ramp this year, stated in her survey, "Thank you so much for building a new porch and handicapped ramp for us. I am forever grateful, its easier to get in and our of my house safely especially having a physical disability and terminal health condition. I can now use my rolling walker and motorized scooter to get in and out safely. Thanks a million and God bless you all and your program. Now I can live my life safely without worrying about falling on any stairs."
