Presented by: Blue Water Community Action  
**Getting Ahead in a Just Gettin' by World . . .**

A single mom of three children was unemployed and lacking life and social skills; leaving her isolated and focused only on caring for her kids. By the end of the program's sessions, she had developed a social network, improved her housing situation, and, through meaningful connections, was able to improve her mental well-being. The mom was also in the process of enrolling in a certificate program after exploring several options during sessions. The family's quality of life has already greatly improved thanks to the support of the Getting Ahead in a Just Gettin' by World program.
