

# Visiting Nurse Association & Blue Water Hospice

*Preferred Provider Since 1952*

## Quality care improving your quality of life

Since 1952, Visiting Nurse Association has served the Blue Water Area. Through in-home health care, private duty services, and our spectrum of hospice care, we provide quality care to our patients and clients with the goal of improving their quality of life.

### Home Health Care

Providing skilled care to patients in their home setting who need treatment and education for management of acute and chronic illnesses. Our team of nurses and therapists work in conjunction with physicians to outline a personalized plan of care to help patients manage their health and prevent hospitalizations.

### Private Duty

Helping clients maintain their independence and continue to reside in their own home by providing assistance with light housekeeping, personal care, medication management, and respite care.

### Hospice Care

Providing end of life care to those that wish to stay in their own homes or reside at the Blue Water Hospice home in Marysville. Our team works together to provide comprehensive, holistic care to allow the end of life experience to be peaceful for both the patients and their loved ones.

Music Therapist, Mindy, sings with a patient.

Physical Therapist, Jim, works with a patient in their home.

Pet therapy dog, Tommy, visits with a patient's family member.
